

Anton Yusupov

Bolshaya Gruzinskaya Street 40 building 2 • Apt 60 • Moscow, Russia, 123056
(985) 933-0116 • antonyusupov@outlook.com

A highly dedicated and self-motivated student with an internship experience, fluent in English and Russian, confident with computer systems and programming. I have personal abilities in trouble solving, finding optimal solutions and conflicts negotiation, finding general mathematical approaches to common tasks. A helpful team member, looking for a supportive role in the IT industry.

Experience

- **Siemens**

Moscow, Russia

Internship at the Digitalization Department

May 2018 – Aug 2018

- Created and improved a MatLab algorithm in order to achieve faster calculations and find a minimum of a non-numeric function. Worked under the supervision of Alexander Agafonov.
 - Improved my math skills as well as my programming and personal skills, including the ability to work in an office and my communicative skills.
 - Learned about the needs of the production in the modern world and how to address them accordingly using mathematical and programming skills.
 - Learned about the world of the metalworking industry and how mathematics is involved in real production processes.
-

Education

- **Wentworth Institute of Technology**

Boston, MA

B.S. Applied Mathematics

2017 – 2019

- took and passed such courses as: Ordinary differential equations, Linear Algebra, Probability and Statistics, Discrete mathematics, Multivariable Calculus, Physics, Computer Science etc.
 - Coursework in courses: ODE's, Physics, Calculus, Prob and Stats
 - Member of SIAM math club
-

Core Technical Skills

Languages: \LaTeX , Python, MatLab, RStudio, HTML

General Skills: Computer proficiency, analytical skills, self-motivated professional, basic and advanced math, teamwork, written communication, MS Office, interpersonal communication, problem solving, active listening

Hardware: Maintenance, peripherals, printers, drivers, troubleshooting

Operating systems: MacOS, Windows 8, Windows 10, Android, IOS

Interests

Sports

Cooking

Artificial Intelligence

Chess

Pets
